QUESTIONS FOR REFLECTION

What is my image of God/the sacred?

Where do I find strength and hope?

How can I hear the story of another without having to share my own experience?

Am I open to learning from the other who is different from me?

What are the gifts I bring to spiritual care?

What are the blessings and challenges in my life experience?

PAST STUDENTS REFLECTIONS

Taking the Clinical Pastoral Education unit at St. Camillus has been rewarding... the tools learned have empowered me to be a better chaplain. The group dynamic and individual supervision was essential in my pursuit of one day being a certified chaplain through the Association of Professional Chaplains (APC).

Chaplain Manuel Torres

I learned that CPE was not about me, nor was it about knowing what to say, but rather it was about being patient-centered, not me-centered. I learned to be present to the patient and learned to trust that the Holy Spirit would help me to listen empathically and help the patient to articulate his or her concerns to find peace of mind and heart.

Gilbert Guzman, Seminarian

St. Camillus Urban Interfaith Chaplaincy training is a well-kept secret, even among the laity of Los Angeles. I had to stumble upon it! And I am so grateful that I did. It has been the highpoint of my career.

Mary Ruth Ewell, LMFT

"Patients deserve care, treatment, and services that safeguard their personal dignity and respect their cultural, psychosocial, and spiritual values. These values often influence the patient's perceptions and needs. By understanding and respecting these values, providers can meet care, treatment, and service needs and preferences."
